

# Patient Safety & Specimen Safety that's what we are all about !

## AutoTubePrep **SELECT**

SELECT

**SELECT** is an automated collection tube labeler that dispenses correct tube type labeled with barcoded ID as well as texts for patient name and various information vital for tests and clinical managements. **SELECT** is designed to perform all blood collection sites including bedside accessions, reduce human errors and turn around time.

**The best choice for your needs:**

- Holds multiple tube types and sizes in 6 interchangeable stockers.
- Programmable tube stockers.
- Manual Tube Insert in addition to auto driven stockers.
- System interfaces with LIS or HIS.
- User friendly software and touch screen monitor.
- Customizable bar coded labels including 2D barcodes.
- Modular design.
- Variety of optional items realize ALL-IN-ONE configuration.

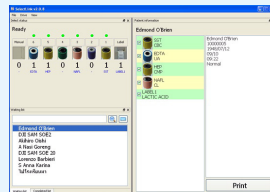

**Secondary Printer**  
for extra Labels

**Manual Entry**  
for extra tubes

**User Friendly Software**
